WORK EXPERIENCE

Creative Director 22.04.2009 - prezent

Company: DFU Web Studio

Working city: Bucuresti

Salary: CONFIDENTIAL

Department: Internet/eCommerce/New Media

Company activity field: We are a team of 2 web professionals, based in Bucharest, Romania, that have between us over 6 years of web design and development experience. We specialize in PHP, MySQL, Great website design, Flash, Javascript/JQuery, Project management and Linux.

Responsibilities:

Company Administrator, Creative Director, responsible for Graphics, HTML, CSS and Flash for the company's clients.

Web Designer / Flash Developer 01.08.2008 - prezent

Company: Netbridge Development

Working city: Bucuresti

Salary: CONFIDENTIAL

Department: Internet/eCommerce/New Media

Company activity field: The Netbridge group of companies is the main supplier of professional online services in Romania. Netbridge Development, Netbridge Investments and Netbridge Services benefit from an experience of over 8 years in developing the Romanian Web. Over 7.5 million users directly use the Netbridge web services and applications every month.

Web : <http://www.netbridge.ro>

Responsibilities:

I was responsible for creating graphic design for the websites owned by the company, creating newsletter templates, static and rich-media banners and Flash Applications and Widgets (Actionscript 2.0)

Achievements:

My main achievement in the company was the development of an Adobe Flash Application to generate and edit the company's online automobile magazine (<http://revista.auto.ro>) using internal resources for creating and publishing it rather than outsourcing it to 3rd parties. With this Application, content editors, already working in the company, can easily add pages, modify text, photos, save and preview the magazine with an easy and intuitive "WYSIWYG" editor. The editor was done in flash and the magazine management system (which was used to manage, add, delete, reorded pages) was created with a php back-end. I was responsible for Flash Development and the magazine managing system supervision.

Jr. Web Designer 11.02.2008 - 20.07.2008
